### **Objective: Multiple Ways to Save on Packaging Costs**

### **Solution: Accutech's Team Approach**

BY RANDY PALMER

When faced with the challenge of saving on packaging costs, there are a multitude of factors to consider: What are my costs of materials? Am I using the right materials? Can automation help with my productivity? Is my package design the best it can be? Am I satisfying my customer's needs???

While all these questions are important, the last one may be the *most* important. If you aren't meeting your customer's needs, that directly affects your bottom line!

At Accutech Packaging we take a unique approach to helping you find the correct answers to these questions: Our Team helps Your Team.

By having subject-matter experts in all facets of packaging, Accutech's staff works together to provide solutions that meet your needs. From materials to automation, package design to engineering, cost effective prototyping along with supply chain management, we deliver for you so you can deliver for your customer.

Call us to see how you can use Accutech's collective expertise to make sense of your variety of packaging requirements. Accutech - one voice with many solutions, all adding up to great results!

---

**About Accutech:** Accutech Packaging produces custom plastic thermoformed packaging, paper mailers and envelopes, and paperboard specialties. We also offer in-house tooling, design and product fulfillment. In addition, Accutech manufactures mail order packaging equipment to automate the outbound shipping process.
