

RapidPak

Autofulfillment PROTECTIVE MAILER SYSTEM

Accutech Packaging, Inc. 508-543-3800 www.accutechpkg.com

The RapidPak high-speed protective mailer system is a self-contained, small-footprint packing station capable of processing 12 packages per minute.

The new RapidPak automated cushioned mailer system with a new, smaller profile design, utilizes Accutech technology that has proven itself for over 30 years, processing millions of orders per year for e-commerce operations shipping jewelry, cosmetics, health & beauty, vitamins and supplements.

System Features & Benefits:

- Excellent product protection utilizing a full range of protective mailers such as Jiffylite® kraft bubble, TuffGard® co-extruded poly bubble and soon-to-be-launched 100% curbside-recyclable paper padded mailer.
- Shipping costs are reduced because of the lightweight mailers with a low profile.
- Flexible system for easy changeover on mailer sizes or constructions from #2 to #6.
- Automated label application with ID Technology 252 utilizing Zebra ZE500 print engine technology and direct thermal shipping label.
- Increased packer productivity and service throughput with this automated processing.
- Secure your product with durable heat seal closure.
- Dell PC will connect to customer file via ethernet for easy processing.
- Symbol hand-held scanner for movement and flexibility.
- Allen Bradley PLC for flexible and reliable programming.
- Low maintenance with easy accessibility to all components.

The RapidPak Sealed Air TuffGard® mailer is currently recyclable at store level. Developments are being made to increase the recycled content of this mailer. The goal is to get to 80% recycled film.

Accutech will also be introducing a paper padded curbside-recyclable mailer in the first quarter of 2023.

Jiffylite® and TuffGard® are registered trademarks of Sealed Air Corporation.

Please contact us if you would like to learn more about this revolutionary new system.
