

WrapidPak

Autofulfillment[™] PROTECTIVE MAILER SYSTEM

The WrapidPak high-speed protective mailer system is a self-contained, small-footprint packing station capable of processing 10-12 packages per minute.

The new WrapidPak automated cushioned mailer system with a new, smaller profile design, utilizes Accutech technology that has proven itself for over 30 years, processing millions of orders per year for e-commerce operations. It is suitable for shipping jewelry, cosmetics, health & beauty, vitamins and supplements and so much more!

System Features & Benefits:

- Excellent product protection utilizing a full range of protective mailers such as TuffGard[®] and TuffGard[®] Extreme recycled poly bubble mailer. The system also runs the Sealed Air Paper Bubble Mailer, which is 100% curbside-recyclable.
- Shipping costs are reduced because of the lightweight mailers with a low profile.
- Automated label application with ID Technology 252 utilizing Zebra ZE511 print engine technology and direct thermal shipping label.
- Increased packer productivity and service throughput with automated processing.
- Symbol hand-held scanner for movement and flexibility.
- Cognex camera for verification of a readable barcode.
- Easy to change between different mailer sizes.
- Secure your product with durable heat seal closure.
- Allen Bradley PLC for flexible and reliable programming.
- Low maintenance with easy accessibility to all components.

Facilities Requirements:

Each workstation:

Electric: 115V, 20 Amp

Each WrapidPak System:

Electric: 230V, 30Amp

Air: 80 psi @ 5 cfm clean and dry shop air

Dimensions:

13'5" Long

6'8" Deep

6'3" High

Consumables:

• 4 x 6 direct thermal shipping labels

• Mailers

Featuring the 100% Curbside Recyclable WrapidPak Sealed Air Paper Bubble Mailer
