

Sealed Air®

BRAND PROTECTIVE PACKAGING

FasFil Jr. Paper Void-fill Pack Station System

Sealed Air® brand FasFil Jr. is a compact and full-featured, on-demand paper void-fill packaging system.

BENEFITS

Operational Efficiency

- Compact size allows for easy placement in pack stations
- Mounting options include tabletop or optional floor stand to best fit any pack station setup
- Quick installation with little to no training needed
- Eliminates labor-intensive hand crumpling paper
- Minimum paper loading time

Product Integrity

- Paper void-fill helps hold products in place, preventing movement during transit

Package Optimization

- Customize paper length with the push of a button to your precise packaging needs

Brand Experience

- Available with custom logo printing for the ultimate brand experience. Ideal for logos, branding and messaging
- Paper void-fill is curbside recyclable for added consumer convenience
- Available in 100% recycled paper packaging material

CHALLENGE

Today's fulfillment operations must stay on pace with increasing consumer demand and their desire to receive parcels quickly. Innovative methods of cutting costs, using labor efficiently and practicing sustainability must be uncovered while at the same time increasing productivity, throughput, and reducing waste.

SOLUTION

The SEALED AIR® brand FasFil Jr. is a compact and full-featured, on-demand paper void-fill system specifically designed for pack station needs. Ideal for medium-volume shippers, this innovative solution can be installed in seconds for maximum uptime. Its compact size optimizes the pack station area with mounting options that include tabletop or floor stand. Designed to swivel for quick and easy paper loading, this void-fill system offers users the option to cut-and-hold or manual mode, which allows for custom paper lengths, all available at the push of a button.
